

New Hampshire Department of Safety Division of Homeland Security and Emergency Management

Mitigation Success Story

Bell Road Phase II, Plymouth, New Hampshire

Following the award of funding from the Hazard Mitigation Grant Program (HMGP) the Town of Plymouth re-graded two (2) catch basins and approximately 100' of closed drainage, installed 234 linear feet of underdrain, and repaired/replaced headwalls. Additionally, the community raised various section of the road by approximately 6".

Prior to mitigation, ongoing erosion and washouts occurred from severe rain events. The improvements have been tested by major rain/precipitation events and performed as expected, thereby eliminating the problems that existed previously.

Before Mitigation

After Mitigation

Project Total Cost: \$295,260.00

HMGP Federal Share \$221,445.00
