

Important Information For Seabrook Station Area Residents

We here at New Hampshire Division of Homeland Security and Emergency Management, in partnership with Seabrook Station and your local emergency management officials, are providing this announcement of a new method residents with disabilities, access, and function needs can request evacuation assistance in case of an emergency.

Traditionally, residents requiring evacuation assistance submitted their information through an annual provided card. In addition to mailing your information, we are now providing residents the option to submit their information online.

If you wish to be added as a resident requiring evacuation assistance, please fill out and mail the Emergency Assistance Card, follow the links below, or scan the QR code to submit your information online. Please mail cards addressed to:
