Dear Health Care Partner:

Thank you for your dedication and commitment to the citizens of New Hampshire. The last year has been challenging for all of us and we have been proud that the Department of Health and Human Services has been able to assist you with your Personal Protective Equipment (PPE) needs. The goal of this program has been to provide our health care partners with needed equipment during a time when there was a scarcity of resources.

Over the last several months, both the PPE market and the health care supply market has stabilized and most are able to provide the needed supplies to meet the demand of New Hampshire providers. This is great news for both our health care partners and the citizens of New Hampshire.

These positive developments have signaled that it is an appropriate time for the State to transition our supply to focus on emergency use. We will fulfill traditional orders through April 19th, however after that time we ask that you please transition to your normal supplier to fulfill your PPE needs.

The State will continue to maintain a well-stocked supply for emergency use going forward and stands ready at a moment's notice to assist when/if necessary in the future.

Thank you for all you do for our state. If you have any questions or need assistance identifying a supplier, please feel free to contact esu@dhhs.nh.gov.

Sincerely,

A handwritten signature in cursive script that reads "Lori Shibinette".

Lori A. Shibinette
Commissioner
