

New Hampshire Department of Safety Division of Homeland Security and Emergency Management

NH Public Assistance (PA) Record Retention Dates

FEMA Disaster Record Retention Policy

Stafford Action Section 705 (Disaster Grant Closeout Procedure [[FEMA Policy 205-081-2, Version 2](#)]) requires Subrecipients under Federally Declared Disasters to retain all accounting records that “adequately identify the source and application of funds provided for financially assisted activities” for a period of “3 years after the date of transmission of the final expenditures report for the disaster or emergency.” Additional information about this requirement can be found in [2 C.F.R. § 200.334 Retention requirements for records](#).

This means that all Subrecipients under Federally Declared Disasters for the State of New Hampshire are responsible for ensuring that they track the closeout date and meet record retention requirements for each disaster under which they have received or are in the process of receiving reimbursement funds from the Federal Emergency Management Agency (FEMA).
